

571—22.10(456A,483A) Purpose and authority. These rules set forth the procedures to open private lands to public hunting, while providing grant funds to create, manage, and enhance wildlife habitat. Pursuant to Iowa Code section 456A.19, all funds deposited into the state fish and game protection fund shall be expended solely in carrying on the activities of the fish and wildlife division. The department assesses a wildlife habitat fee in conjunction with each resident and nonresident hunting license sold in Iowa, and this fee is deposited into the state fish and game protection fund. At least one dollar from every wildlife habitat fee is required to be spent in a manner that increases landowner participation in federally funded conservation programs that encourage opportunities for recreational hunting on private land.
